

- Modes of transportation
- = Electric scooter
 - = walk
 - = train
 - = Electric bike
 - = Ferry
 - = drive in car (gas)
 - = drive in car (electric)

KEY

↓ my
Tracking modes
of transportation
during
July 13-27th
in
NYC

- Notes
- (10 mins) → Each line in colored in circle leaves is 5 minutes
 - colored in leaves are environmentally efficient (electric)
 - open leaves are not energy efficient/uses gas/fuel
 - Each leg counts as 5 minutes
 - except for bent legs that count as 1 hour each
 - Each outline counts as \$5 cost. As shape gets bigger, the more expensive it is
